New 2 in 1 rotation limiter for cam lock 19

In our constant product evaluation process we have combined 2 rotation limiters 90° and 180° into 1 for the 19 mm key retaining cam lock.

You can use it as 90° and 180° by flipping it over.

This action will reduce the need to deal with 2 different rotation limiters in stock.

The new rotation limiter P/N 87606630 will be supplied with final products or in kit P/N 87666014 immediately after we will finish consuming the old stock (87606378 & 87606377).
