BODY PINS IN MTL800/500 & MT5/+ systems

In order to unify the way of loading bodies for all the above systems, the following body pins configuration will be used.
for example, loaded configuration for 29 type bodies:

The same change will take effect also for 22 type bodies – P/N 83300800

This change will take effect immediately.

You can use old version body pins whether you have it in your stock.
