New Version of High Security Escutcheon

As part of our continuously improvement process seeking for enhanced security product with competitive price, we would like to introduce you with the NEW version of high security cylinder protectors (escutcheons).

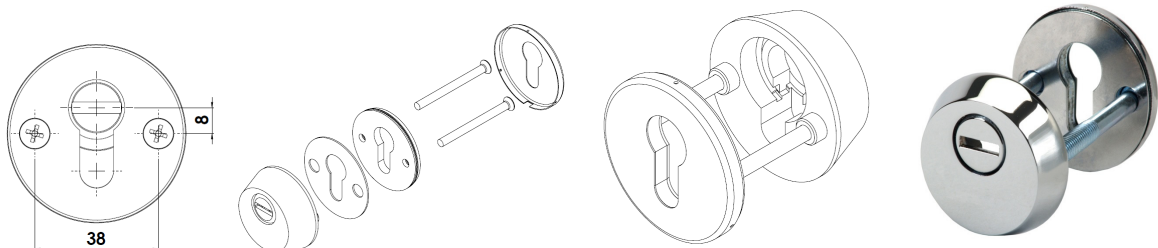

The new version of cylinder protectors is now made of HARDENED STEEL, both body and rotating disk, providing enhanced drilling protection.

Our cylinder protectors compatible with all Euro profile cylinders and different Mortise locks with Din standard fitting dimensions (38x8) for door thickness 40-55 mm.

Esthetic design was treated as well by eliminating exposed screw (from the interior side) with a nice coated cover

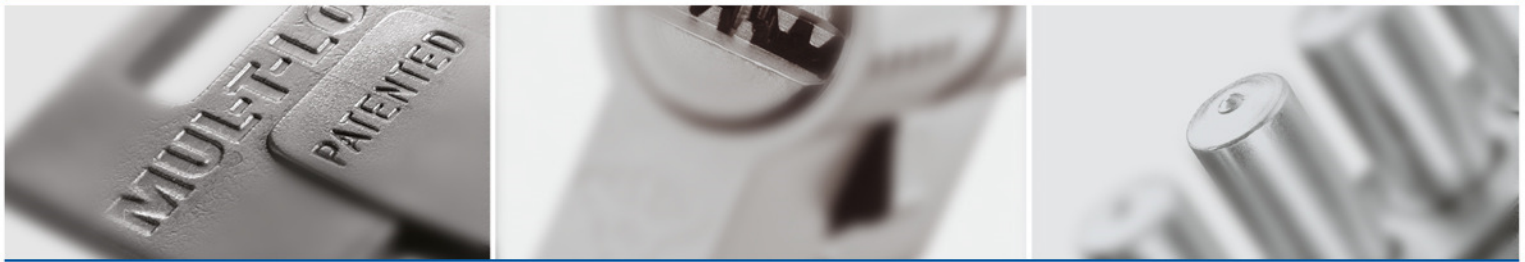

New cylinder protectors are available with the below finishes:

- i. Bright nickel satin (26930521)
- ii. Bright brass (26930520)
- iii. Bright chrome nickel (26930522)
