MVP45 EOL (End Of Life)

The MVP45 is part of our vehicle protection portfolio for approximately 30 years, with great world-wide success, hundreds of thousands installed vehicles and different locks configurations.

Unfortunately, during the last years, quantities and demand has decreased dramatically, bringing us to the final decision of stopping the MVP45's production.

Therefore, effective immediately, we will not be able to accept new orders for MVP45.

MVP22, which provides exactly same protection and functionality (and uses same brackets and shackles, with identical installation method) is still available for your orders.
