ArmaDLock™ – New name & updated branding

The ArmaDLock™ is one of Mul-T-Lock's most popular van locking solutions.

Soon, we will be expanding our van locking product range, so we took this opportunity to re-brand the existing and upcoming solutions using the well-known MVP™ trademark.

The name ArmaDLock™ will continue to be used for now, but MVP™2000 will also be used and eventually replace it.

The product will soon be available in updated packaging, as shown below (same size, different artwork).
